National Knowledge Resource Consortium (NKRC)

NKRC Consortium

National Knowledge Resource Consortium (NKRC) E-Journals

IIG Library is a member of National Knowledge Resource Consortium (NKRC). Through this consortium, all the libraries of DST are provided online access to add journals of various publishers, in addition to the regular subscribed journals of each library. From April 2009, the following database of journals from different publishers is accessed online from IIG at Mumbai. The Consortium envisions emerging as a leader to serve the R&D sector with much-needed information to strengthen the research development system in the country. Services & Initiatives by IIG Library

Online Public Access Catalogue (OPAC)

The Library's Online Public Access Catalogue (OPAC) can be accessed in Internet to search all the bibliographic records available in the Library database. The OPAC can be searched by author, title, subject, keywords, publisher, and class number. The OPAC also provides information about new arrivals of journals/book, Issued books, On Shelf books etc. in the library.

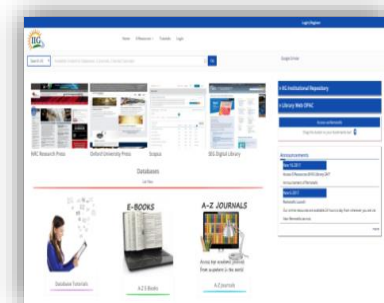

IIG Institutional Repository

IR-IIG is an online digital archive of the institute's intellectual output and it is intended to create global visibility of scholarly information. IR covers, published (journals articles, conferences papers, etc.) and (theses, project reports, etc.) digital material. Deposited items in the IR can be accessed globally and can be browsed by author, subject and year of origin.

RemoteXs

IIG Library provides remote access facility to current Students, Faculty Members, and Staff Members to access the subscribed e-resources from an off-campus location, through "RemoteXs" software service.

Services & Initiatives by IIG Library

- Library Website – a single point to connect users with all its content
- Library Automation – SLIM Software
- **RFID** system is integrated with SLIM Software
- IIG Google Scholar Citation
- QR Code Technology
- Library updates over Twitter & Digital Notice Board

To be more interactive and user friendly

Research Support Service (RSS)

RSS objectives are:

- To provide value added services to IIG community and to attend the Reference queries.
- To support research/project related activities.
- To extend help its users in using WoS, Scopus, GeoScienceWorld, Searching e-resources, User education and other related tools.
